

# Paper Star Light

The Paper Star Light is a fireproof document safe, graded S2 to EN 14450 for burglary resistance and fire-tested for 30 minutes, so papers survive a fire as well as a break-in. Seven sizes run from 24 to 919 litres, holding 2 to 75 lever-arch binders. The fire rating is a paper rating — it holds the inside cool enough that documents do not char during a 30-minute fire. Data media such as tapes, disks and drives are damaged at far lower temperatures, so backups belong in a data-rated safe such as the Fire Star or DataPlus ranges.

### CERTIFICATIONS

- Burglary** S2 (EN 14450), tested by ECB•S Germany
- Fire** 30 minutes for paper (EN 15659, LFS 30 P)
